POLY-THERM, A TOTALLY INTEGRATED SYSTEM FOR DISTRIBUTION OF HOT OR CHILLED WATER, CRYOGENIC, CHEMICAL TRANSPORTATION

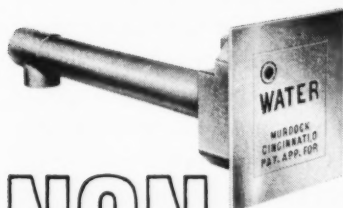

Save planning time and reduce your costs. One order for Poly-Therm piping covers design, specifications, prefabrication, factory testing and delivery to your site. POLY-THERM, made with continuous polyurethane foam insulation over carbon steel or other special purpose carrier pipe materials, with welded or mechanical joint connections and a continuous outer jacket of fiberglass reinforced polyester resin, provides efficient, economical underground and overhead systems for fluids from +220°F to -300°F. Straight sections up to 40 feet, fittings factory insulated, jacketed, and vapor sealed. Includes required anchors, terminal fittings, field closure kits.

PERMA-PIPE

1650 North Elston Avenue, Chicago, IL 60622

312/489-5800

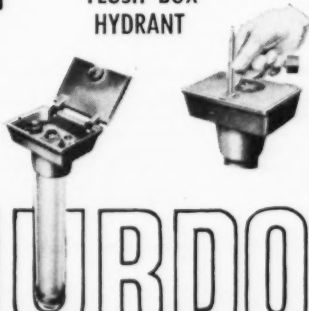

WALL HYDRANT

Can be installed in any type of wall construction to bring water to outside of building year-round.

NON-FREEZING

FLUSH BOX HYDRANT

Ideal, year-round source of water for commercial, industrial, recreational and residential installations. Lock lid prevents waste of water and vandalism.

MURDOCK

2488 RIVER ROAD, CINCINNATI, OHIO 45204

Up to 500 gallons of water per minute

RED JACKET BIG-FLO SUBMERSIBLE PUMPS

Here's the water pump for commercial or industrial installations . . . from a company that has been building pumps for more than 90 years. Red Jacket's Big-Flo line includes submersible pumps in 6, 8 and 10 inch diameters. Heads of more than 1300 feet are available, with ratings to 125 H.P. and capacities to 500 G.P.M.

And what's more, we build our own motors for the ultimate in pump dependability and easy service. Send coupon for new brochure providing complete information.

**RED JACKET
PUMPS**

BOX 3888 • DAVENPORT, IOWA

WEIL-McLAIN

Gentlemen:

- ☐ Please send me literature and specifications on your Big-Flo Submersible Pump Line.
☐ Please ask your man in the Red Jacket to stop by with complete details.
